

Sussex Fabulous Four Raffle

The Sussex Committee of the Game and Wildlife Conservation Trust is delighted to announce the launch of the Sussex Fabulous Four Raffle, which offers the top prize of:

A day's shooting for eight guns on four of the most outstanding Shoots in England - Goodwood, Springhead, Cocking and Angmering Park.

The day selected is Tuesday 9th December 2014, which is hopefully far enough ahead that you can clear your diary.

This is a day's shooting that money cannot buy, and is only possible due to the generosity of these four shoots, and we are extremely grateful to them for their support.

The winning team of guns will meet at Goodwood and will be whisked from Shoot to Shoot, with a signature drive on each. The last drive will be at Angmering Park, after which tea will be at The Dover Barn, Angmering Park for guns, keepers, organisers and sponsors. The shoot lunch for the winning team will be at a prestigious venue, still to be confirmed.

A ticket for eight guns, costs £200, and sales are strictly limited to 250 in number. Our aim is to raise a staggering £50,000, with the Game and Wildlife Conservation Trust receiving £40,000 and the balance of £10,000 going to other charities at the discretion of the four shoot owners.

To launch the raffle, you are invited to a drink's party on Thursday 17th October, 2013 at Knepp Castle, courtesy of Sir Charles and Lady Burrell. Numbers are limited to 100, so invitations are limited to those interested in buying a ticket, rather than the whole family!

Tickets will be on sale at the party, but if you cannot attend and would like to buy a ticket, they are also available by sending a cheque to our Treasurer, Mr Rupert Burgoyne. Please see overleaf for details.

The Game & Wildlife Conservation Trust is an independent wildlife conservation charity which has carried out scientific research into Britain's game and wildlife for the past 70 years. We advise farmers and landowners on improving wildlife habitats and we lobby for agricultural and conservation policies based on science. We employ 14 post-doctoral scientists and 50 other research staff with expertise in areas such as birds, insects, mammals, farming, fish and statistics. We undertake our own research as well as projects funded by contract and grant-aid from Government and private bodies. The Trust is also responsible for a number of Government Biodiversity Action Plan species and is lead partner for grey partridge and joint lead partner for brown hare and black grouse. www.gwct.org.uk
