Chairman's Welcome

As Chairman of this Auction Dinner, I am delighted to be welcoming you all here tonight to raise both awareness and funds for GWCT in Scotland. We were thrilled that with your help we achieved a profit of more than £100,000 last year. This annual dinner is one of the largest fund raisers for the charity and it would be wonderful if we can keep up this momentum!

As many of you know, the GWCT is highly regarded by governments both North and South and with the science-based research that is produced we hope that policy decisions will be increasingly well informed in matters relating to our countryside going forward. With budgets being squeezed the Scottish government is leaning more on bodies such as the GWCT to help them and accordingly the support from fund raising events such as this is vital to help provide the resource needed. GWCT are apolitical and have been researching and developing game and wildlife management techniques for over 80 years. They also provide training and advice on how best to improve the biodiversity of our countryside and are very much a source of reason rather than hearsay.

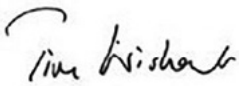

We are delighted that Nick von Westenholz, GWCT's new CEO, joins us tonight and Nick will speak a little later.

A great deal of hard work goes into making this dinner such a great occasion and this would not be possible without the support of generous corporates and individuals such as we have here tonight, as well as our wonderful committee who have brought their collective experience to our meetings and ably sourced the wonderful auction lots that we have on offer.

I would like to extend a special thanks to each of our main sponsors; long-time supporters Pentland Landrover and Saffery and this year we are delighted to welcome Wright, Johnston & Mackenzie, part of the Irwin Mitchell Group as our third main sponsor. If you are not already familiar with these companies please refer to our dedicated sponsor page in this catalogue which will tell you more. They are all represented here tonight by taking a table and would be delighted to meet you.

Thanks must also go to Prestonfield House Hotel for providing us with this delicious dinner and the wonderful surroundings, to Highland Game for donating the venison for our main course and to those companies that have taken advertisements in our catalogue. Also, to our very loyal donors, many of whom have supported us for a number of years and in particular to the Glenrinnes estate who have again provided the most wonderful days shooting. Please have a very good read of the catalogue and don't forget to take it home with you!

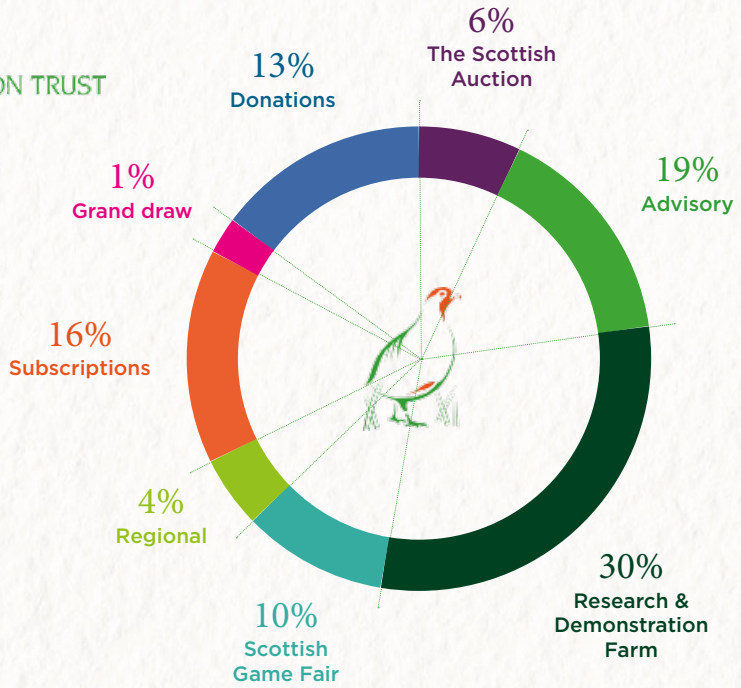

I do hope that you all have a wonderful evening and I look forward to meeting as many of you as possible.

Director's Cut

Dear Guest,

Thank you for supporting the Game & Wildlife Conservation Trust's Prestonfield Auction. This catalogue represents more than a collection of lots; it is a vital contribution to the independent science and practical advice that underpin our work across Scotland's countryside.

GWCT is unique! We are only organisation that operates at the intersection of scientific research, practical land management, and policy advice. Our approach to conservation is rooted in real, working landscapes, where game, wildlife, and rural traditions are sustained through responsible management. By combining robust scientific research with on-the-ground experience, we deliver practical, evidence-led solutions that have real conservation benefits while supporting productive land use.

At last year's auction, I highlighted the need for robust, Scotland-specific evidence to inform a rapidly evolving and increasingly polarised debate around the practice of gamebird releasing. Over the past year, that debate has only intensified.

In response, GWCT is now conducting the research needed to address the questions being raised by policymakers, regulators, and the public, ensuring that decisions are informed by evidence rather than assumption.

The funds raised through this auction will directly support our work, from research and monitoring to advisory services that help land managers operate responsibly and sustainably. In an era of rapid change and increasing scrutiny, that role has never been more important, not just for the future of fieldsports, but for the future of conservation within productive, working landscapes, something that would not be possible without your generous support.

Dr Nick Hesford,
GWCT Director, Scotland

GAMEBIRD RELEASE ASSESSMENTS

The GWCT recognise the invaluable benefits that land management associated with shooting delivers for wider biodiversity. However, there are growing concerns that high numbers of released gamebirds may be damaging to local flora and fauna. Shoots now face increasing pressure to demonstrate sustainability and measurable biodiversity gains arising from their management.

GWCT Advisory Services Scotland offer Gamebird Release Assessments to provide clear, expert-based evidence of sustainable management. The service includes:

- On-site checks of release pens, bird welfare and habitats.
- A clear and comprehensive report with practical recommendations and a sustainability score.

Gamebird Release Assessments are intended to be repeated on an annual basis in order to document how recommendations are implemented over time. If combined with GWCT Predator Control Assessments, they form part of a vital paper trail that demonstrates uncompromising commitment to due diligence and best practice.

For more information on our **Gamebird Release Assessments**, please contact us on 0131 202 7670 or email scottishadvisory@gwct.org.uk.

Privacy Policy: We will use your details to fulfil your request. For more information about how we protect your personal data, please see our Privacy Policy on our website *www.gwct.org.uk*

How to Pay

Lots can be paid for direct to GWCT by cheque, BACS or credit card, or online through the link in your bid success notification. We can email you an invoice if required. Once you have paid you will receive a Voucher by email (from the Scottish Auction office or the online auction platform EMMA) which gives the details of the person you should contact to redeem your auction prize. The donor will be given the name of the successful bidder but we ask the bidder to make contact to make arrangements. If you have any difficulties, please contact Lois Bayne-Jardine, Auction Manager *scottishauction@gwct.org.uk*. Cheques should be made out to GWCT Scottish Auction; arrangements for delivery of auction lots to be made through the Auction Manager, Lois Bayne-Jardine, once full payment has been made.

GiftAid

In cases where auction lots have been provided by individuals it may be beneficial from a tax perspective for these auction lots to be sold on behalf of the providers of the lots, and although they will be given 21 days in which to ask for the proceeds of sale to be sent to them it is believed that they will not do so and by not doing so that they will giftthe proceeds to GWCT under GiftAid, thus adding 25% to the hammer proceeds. For this reason some of the lots are in fact being sold for the providers of the lots. In the remainder of cases, where the successful bid exceeds the known reasonable market value of the Lot, the purchaser, by signing a GiftAid Declaration (you must be a UK taxpayer and have tax paid or payable equivalent to the relief being claimed), will be able to enhance the value of their donation. GiftAid allows the Game & Wildlife Conservation Trust, being a Charity, to claim an addition 25% on the difference between the market value and the winning bid. The Committee urge you to help them maximise funds generated by their auction for the Game & Wildlife Conservation Trust in this way. This is at no additional cost to yourself, and if you are a higher rate taxpayer you may be able to claim further tax relief via your self-assessment tax return of a further 25% of the difference. At the time of payment you will be advised which case applies and where appropriate asked to sign a GiftAid Declaration form.
